- Agricultural Institute of Canada. ANNUAL REPORT. 1964-1967. Ottawa. 7 Ag83
- Agricultural Society of Kenya. STATEMENTS OF ACCOUNTS WITH MINUTES OF ANNUAL GENERAL MEETING. Oct./Dec.1963/1965. Nairobi. 24 R812S
- Aichi. AICHI NO ENGEL. 1965. Anjo. SB13.A3
- American Entomological Institute. CONTRIBUTIONS. v.1, No.1. 1964. Ann Arbor, Michigan. QL461.A45
- THE ASSISTANT LIBRARIAN. v.61, No.1. Jan.1968. London, Association of Assistant Librarians. Z671.A84
- Australia. Bureau of Meteorology. WEATHER REVIEW: SOUTH AUSTRALIA. Jan.1967. Melbourne. QC992.S6A2
- Belgium. Institut national de statistique. STATISTIQUES DU COMMERCE ET DES TRANSPORTS. No.9. Sept.1967. Brussels. HA1391.B4
- Belgium. Institut national de statistique. STATISTIQUES INDUSTRIELLES. No.7/8. July/Aug.1967. Brussels. HA1391.B42
- Bermuda. Department of Agriculture and Fisheries. BULLETIN. 31/36. July 1958, Jan. 1967. Hamilton. 8 B45B
- THE BREWERS' JOURNAL. v.103, No.1220. May 1967. London. 390.8 B753  
Continues Brewers' Journal and hops and malt trades review.
- Burundi. Institut Rundi des statistiques. BULLETIN DE STATISTIQUE. No.9. Sept.1967. Bujumbura. HF269.B95A3
- Burundi. Institut Rundi des statistiques. BULLETIN STATISTIQUE. SUPPLEMENT. No.3. 1967. Bujumbura. HF269.B95A3 Suppl.
- California Grain & Feed Association. MEMBERSHIP DIRECTORY. 1964. Sacramento. 225 C1223
- Continues California Hay, Grain and Feed Dealers Association. Membership directory. CATALYSIS REVIEWS. v.2, No.1. 1968. New York. QD501.A1C3
- Centre regional de recherches de sociologie et d'economie rurales. ETUDES D'ECONOMIE RURALE. v.16, No.53. Sept.1966. Rennes. 281.9 R29
- Centro de Investigacion en Fruticultura, Horticultura y Vitivinicultura. BOLETIN. SERIE: PATOLOGIA Y SANIDAD VEGETAL. No.1. Aug.1966. Montevideo. SB599.C4
- Centro de Investigacion en Fruticultura, Horticultura y Vitivinicultura. CIRCULAR. SERIE: PATOLOGIA Y SANIDAD VEGETAL. No.1. Mar.1967. SB599.C42
- Ch'a yeh shih yen fen so, Yuchi. Kung tso nien pao. ANNUAL REPORT. Oct.1954/1955. Yuchi. SB272.T3C52
- Companhia Agricola de Minas Gerais. Boletim. No.1. Sept.1965. Belo Horizonte. S15.C62

- CONTRIBUTIONS IN MARINE SCIENCE. v.12. July 1967. Port Aransas, University of Texas, Marine Science Institute at Port Aransas. 442.9 T31
- COOPERATIVISMO & NORDESTE. v.1.,No.1. Jan./June 1966. Sudene. HD3472.A1C6
- Council for Scientific Policy. REPORT ON SCIENCE POLICY. 1967. London. Q180.G706
- CURRENT PROJECTS IN LIBRARY AUTOMATION; AN AUSTRALIAN DIRECTORY. 1967. Canberra, Australian Advisory Council on Bibliographical Services. Z699.A1C8
- CYBERNETICA. v.1. 1958. Namur, International Association for Cybernetics. Q300.C8
- Dahomey. Direction de la statistique. BULLETIN DE STATISTIQUE. v.4.,No.10,i.e.11. Jan.1967. Cotonou. 270 D133
- Continues Dahomey. Service central de la statistique et de la mecanographie. Bulletin de statistique. Ecole superieure d'agriculture, Angers. BULLETIN DE DOCUMENTATION ANALYTIQUE. Feb.1968. Angers. Z5071.A3E2
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: AUSTRIA. No.1. Mar. 1968. London. HC261.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: BELGIUM, LUXEMBURG. No.1. Jan.1968. London. HC311.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: BRAZIL. No.1. Jan. 1968. London. HC186.A1E3
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: CHINA, HONG KONG, NORTH KOREA. No.1. 1968. London. HC526.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: CONGO, RWANDA, BURUNDI. No.1. Feb.1968. London. HC591.C6E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: CUBA, DOMINICAN REPUBLIC, HAITI, PUERTO RICO. No.1. 1968. London. HC151.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: EASTERN EUROPE No.1. 1968. London. HC240.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: FORMER FRENCH WEST AFRICA, TOGO. No.1. 1968. London. HC547.W5A1
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: FRANCE. No.1. 1968. London. HC276.2.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: GERMANY, FEDERAL REPUBLIC. No.1. 1968. London. HC287.A2A1
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: GHANA, SIERRA LEONE, GAMBIA, LIBERIA. No.1. Jan.1968. London. HC517.G6A1
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: GREECE. No.1. 1968. London. HC295.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: JAPAN, SOUTH KOREA. No.1. 1968. London. HC461.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: MEXICO. No.1. Jan. 1968. London. HC131.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: NETHERLANDS. No.1. 1968. London. HC321.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: PAKISTAN, AFGHANISTAN. No.1. Jan.1968. London. HC440.5.A1E3
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: SWITZERLAND. No.1. 1968. London. HC395.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: USSR. No.1. 1968. London. HC331.A1E3
- Includes Annual supplement.
- Economist Intelligence Unit. QUARTERLY ECONOMIC REVIEWS: VENEZUELA. No.1. 1968. London. HC236.A1E3
- Includes Annual supplement.
- ELEVAGES D'AUJOURD'HUI. v.1.,No.1. Apr./July 1968. Rouen. SF1.E4
- ETUDES SOCIALES ET AGRICOLES. v.43.,No.440. July 1965. Angers, Association des anciens eleves de l'Ecole superieure d'agriculture d'Angers. S5.E82

NATIONAL AGRICULTURAL LIBRARY  
U.S. DEPARTMENT OF AGRICULTURE

# NOTICE

The National Agricultural Library will move to its new home at Beltsville, Maryland in May.

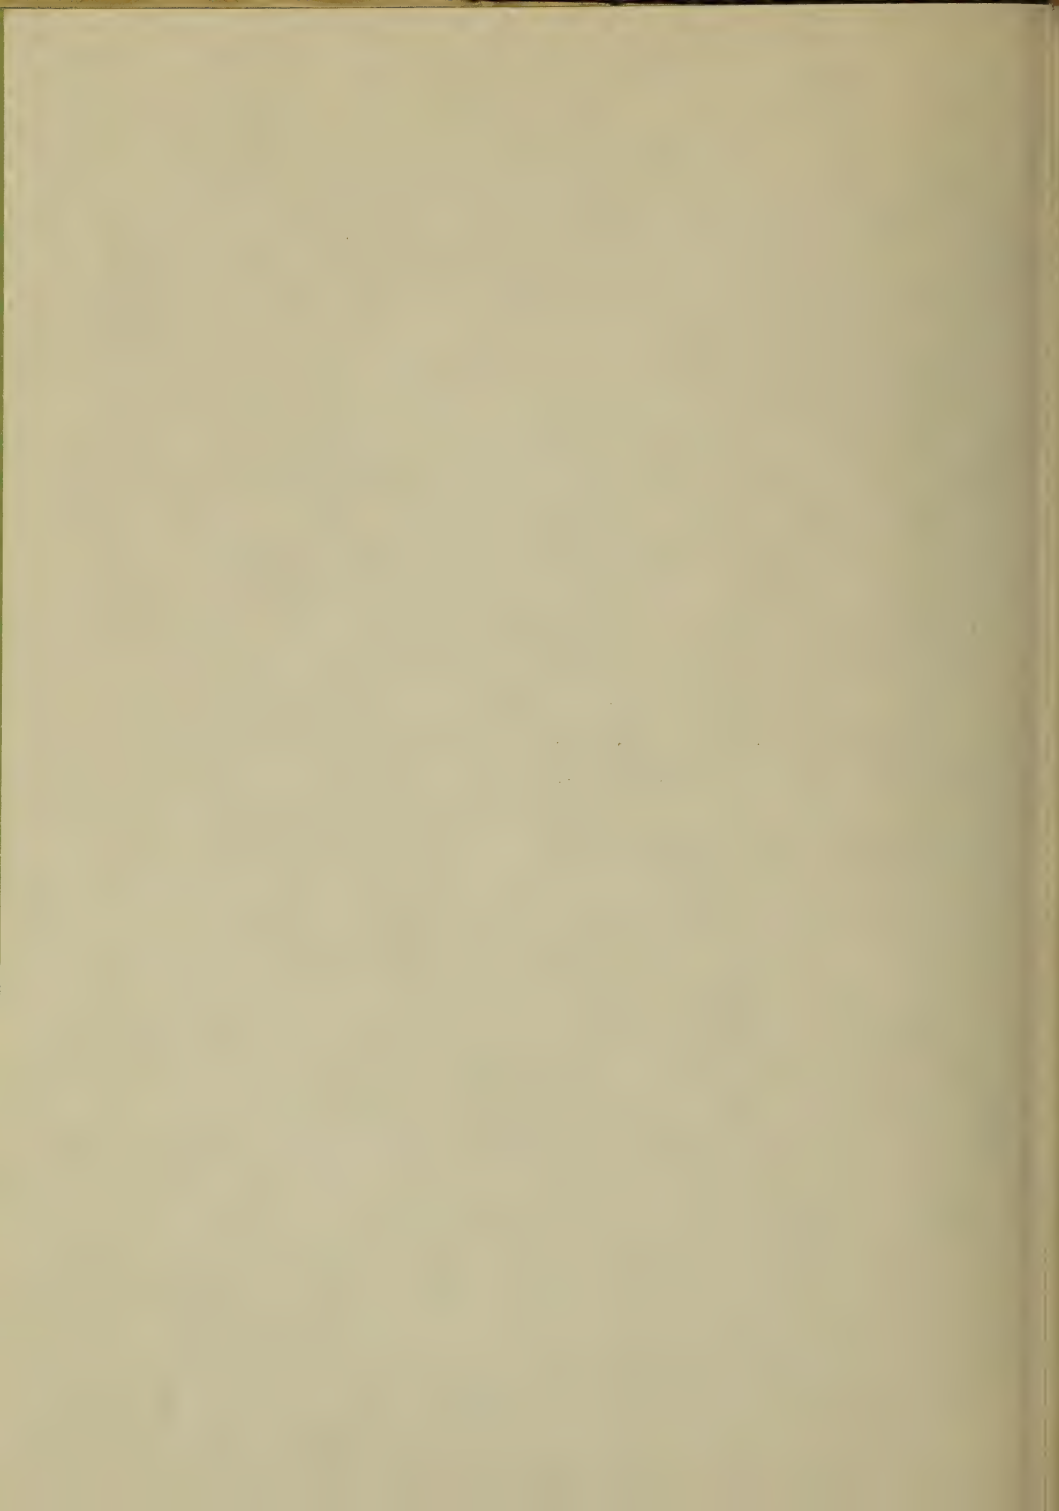

The Director of the Library has expressed the hope that the transfer can be accomplished without undue interruption of normal library operations. However, the relocation of the Library's immense collections will entail unavoidable problems and delays in service. While the moving is actually in progress, reference and lending services will be provided insofar as possible by the Library's Beltsville Branch to Department personnel only. Service from the main Library collection will be drastically curtailed.

After May 1, please return all publications to

National Agricultural Library  
Beltsville, Maryland 20705

Full service will resume at the above address as soon as possible after June 1.

# BIBLIOGRAPHY OF AGRICULTURE

Vol. 33

April 1969

No. 4

The Bibliography of Agriculture is an index to the literature of agriculture and the allied sciences received in the National Agricultural Library. Publications from any country are indexed, provided they are in one of the languages shown in CAPITALS at top of next column, or have summaries, abstracts, or translated titles in one of those languages.

Literature received more than one year after publication is generally not indexed. Exceptions are made for important scientific publications.

Indexing of articles on the processing of agricultural products is limited to those on primary processing.

Unsigned articles and those signed with pseudonyms or initials, editorials, letters to the editor, and columns appearing regularly, are omitted.

For more detailed coverage of the literature on pests and their control, please consult the Pesticides Documentation Bulletin, a biweekly publication of the National Agricultural Library.

## FORMAT

The Bibliography is a classified arrangement of references under the following subjects:

- USDA Publications
- State Agricultural Experiment Station Publications
- State Agricultural Extension Service Publications
- Agricultural Economics and Rural Sociology
- Agricultural Products
- Animal Industry
- Engineering
- Entomology
- Food and Human Nutrition
- Forestry
- Plant Science
- Soils and Fertilizers
- Miscellaneous

The classified section is followed by the listing of:

- New Periodicals and Serials
- Translations
- Food and Agriculture Organization of the United Nations (FAO) Publications

The last section of each monthly issue, except November, is the Author and Subject index for that issue.

For monographs the title is shown in the original language, followed by the English version. Titles of foreign language articles in serial publications are given in English only; the language of the text is shown in abbreviated form in parentheses at the end of the title. The following notations are used:

(Af)	Afrikaans	(Ic)	Icelandic
(Al)	Albanian	(In)	Indonesian
(Ara)	Arabic	(It)	ITALIAN
(Arm)	Armenian	(Ja)	JAPANESE
(Az)	Azerbaijani	(Ka)	Kazakh
(Be)	Belorussian	(Ko)	KOREAN
(Bu)	Bulgarian	(La)	Latvian
(Bur)	Burmese	(Li)	Lithuanian
(Ch)	CHINESE	(No)	NORWEGIAN
(Cz)	CZECH	(Pe)	Persian
(Da)	DANISH	(Pol)	POLISH
(Du)	DUTCH	(Por)	PORTUGUESE
(Es)	Estonian	(Rum)	Rumanian
(Fi)	Finnish	(Rus)	RUSSIAN
(Fl)	Flemish	(Se)	SERBO-CROATIAN
(Fr)	FRENCH	(Si)	Siamese
(Ge)	GERMAN	(Sl)	Slovenian
(Geo)	Georgian	(Sp)	SPANISH
(Gre)	GREEK	(Sw)	SWEDISH
(He)	Hebrew	(Ta)	Tadzhik
		(Tu)	TURKISH
(Hu)	HUNGARIAN	(Uk)	UKRAINIAN

Abbreviated names of the publications cited prior to July 1, 1964 are those from USDA Miscellaneous Publication 765-List of Serials Currently Received in the Library of the United States Department of Agriculture, July 1, 1957. Abbreviated names of all new periodical titles received after July 1, 1964, are taken from the American Standard for Periodical Title Abbreviations. As time allows, abbreviations set up for titles before that date will be converted to the new form.

The presence of the term "Ref." in the citation indicates that the article contains ten or more references to the literature.

Following each citation is the Library classification number which should be used when requesting loans or reproduction of articles.

## FREQUENCY OF PUBLICATION

The Bibliography is published monthly. The December issue is devoted wholly to a subject index and the cumulated Personal and Organizational index to the preceding eleven issues.

## AVAILABILITY OF REFERENCES CITED

### Loans

Most of the material in the National Agricultural Library collection may be borrowed by employees of the Department of Agriculture and by other libraries. In requesting loans, please include the library call number found at the end of the citation. Loan of periodicals is restricted to the Washington, D. C. area. Foreign statistical publications and rare books are loaned only by special arrangement.

### Free Distribution

U.S.D.A. publications. Domestic requests for publications of the United States Department of Agriculture will be filled free to libraries and other qualified agencies and organizations, as long as the supply lasts. (For ordering information, see Checklist of U.S.D.A. Publications in this issue.) Foreign institutions, organizations and agencies which issue publications may obtain U.S.D.A. publications in exchange by writing to the United States Department of Agriculture, National Agricultural Library, Exchange Unit, Washington, D. C., 20250.

State Agricultural Experiment Station and Extension Service publications. Publications issued by State Agricultural Experiment Stations and Extension Services are available except where noted, and as long as the supply lasts, from the issuing station or service. The National Agricultural Library does not distribute them; however, reproductions are available at regular Library rates.

### Technical Reports

Citations listed with the annotation "CFSTI" followed by price are also available for purchase from the Clearinghouse for Federal Scientific and Technical Information, U. S. Department of Commerce, Springfield, Virginia, 22151.

## Reproduction

All articles listed may be obtained in microfilm or photoprint form from the United States Department of Agriculture, National Agricultural Library, Photoduplication Section, Washington, D. C., 20250. Copying charges for each periodical or book are:

MICROFILMS: \$1.00 for each 30 pages or fraction copied from a single article or book.

PHOTOPRINTS: \$1.00 for each 4 pages or fraction copied from a single article or book.

RUSH SERVICE: Will be furnished upon payment of \$1.00 additional for each order.

Payment must accompany the order. Cash, Library coupons, check or money order drawn to the National Agricultural Library, U. S. D. A., are acceptable. Payment for orders originating outside of the United States should be made by international money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents Deposit funds cannot be honored. Credit may be extended only to Government agencies and institutions. Billing address should be indicated.

### Library Coupons

National Agricultural Library coupons, valued at \$1.00 each, may be purchased in any quantity.

-----  
PLEASE GIVE COMPLETE BIBLIOGRAPHIC INFORMATION AS IT APPEARS IN THIS PUBLICATION FOR EACH ITEM REQUESTED.  
-----

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., 20402  
\$26.50 per year, domestic; \$33.25 per year, foreign. Single copies vary in price.

Use of funds for printing this publication approved by the Director of the Bureau of the Budget (January 3, 1969).

Checklists of publications of the U. S. D. A., State Agricultural Experiment Stations, and State Agricultural Extension Services are prepared for the convenience of those who wish to follow the literature from these sources. All such publications are included also in the classified section and indexed in the author and subject indexes.

Abstracts are included with citations to U. S. D. A. publications, provided they are brief and are received with the original publication.

### U. S. D. A. PUBLICATIONS

Publications in the various United States Department of Agriculture series are listed first, followed by publications issued by the various agencies within the Department, arranged alphabetically by name of agency.

Domestic requests for publications in the various Department series will be filled free to libraries and other qualified agencies and organizations upon application to the United States Department of Agriculture, Office of Information, Washington, D.C., 20250, as long as the supply lasts. They may also be purchased from the Superintendent of Documents, Washington, D.C., 20250.

Domestic requests for most publications issued by the Department will be filled free by the issuing agency, as long as the supply lasts. Requests should be addressed to the United States Department of Agriculture, name of the specific issuing agency, Washington, D.C., 20250.

Foreign governments, institutions and agencies which issue publications, may obtain United States Department of Agriculture publications in exchange by writing to the United States Department of Agriculture, National Agricultural Library, Exchange Unit, Washington, D.C., 20250.

For further information about the availability of United States Department of Agriculture publications, consult U.S.D.A. List Number 11, List of Available Publications of the United States Department of Agriculture, obtainable from the United States Department of Agriculture, Office of Information, Washington, D.C., 20250, and for sale by the Superintendent of Documents, Washington, D.C., 20402.

#### Agriculture Information Bulletins

- 22044 U. S. D. A. Forest Service.  
HIGHLIGHTS IN THE HISTORY OF FOREST  
CONSERVATION. U. S. D. A. Agr. Inform. Bull. 83, rev.,  
40 p. Aug. 1968. 1 Ag84Ab

This short history of conservation gives some of the important steps in our evolution from the belief that forests were something to be exploited and gotten rid of as quickly as possible, to the realization that forests are necessary to human welfare. And that by good management they can be kept permanently productive. As tall oaks from little acorns grow, the work of conservation has grown from a tiny beginning to a great movement, extending its benefits in all directions. It is a living movement, its parts mutually interdependent. Let us keep it growing healthily.

- 22087 Hermesmeier, L. F., and Young, R. A. EFFECT OF SEDIMENT LOAD ON THE RATING CURVES OF 0.6-FOOT HS FLUMES. U. S. Agr. Res. Serv. ARS-72-64:12, 10 p. June 1968. A56.9 R31
- Runoff.  
Calibration tests of a standard 0.6-foot HS flume were made using both clear water and sediment-laden water. Corrections to a standard calibration were determined for 1-, 2-, 4-, 6-, 8-, and 12-percent sediment in the measured water and flow rates from 0.003 to 0.10 c.f.s. Soil was used as the sediment in the first series of tests and sand was used for a second series. The sediment-laden water caused measurement errors up to 30 percent when a standard calibration curve was used with a 0.6-foot HS flume. Differences in stage height caused by sediment in the measured water were largely caused by changes in the slope and the elevation of the floor of the flume and approach channel. Errors because of changes in viscosity and density of the measured water caused by suspended sediment were negligible.
- 22089 Williams, J. R. RUNOFF HYDROGRAPHS FROM SMALL TEXAS BLACKLANDS WATERSHEDS. U. S. Agr. Res. Serv. ARS-41-143, 24 p., map. Oct. 1968. A56.9 R31
- Runoff hydrographs for ungaged watersheds, ranging in size from 0.275 to 17.6 square miles, in the Blacklands of Texas can be estimated with considerable accuracy by employing certain empirical relationships. These relationships, based on a study of gaged watersheds in the Blacklands, provide estimates of:
- (1) The peak rate of runoff,
  - (2) the time to peak, and
  - (3) the ordinates of the hydrographs.
- These relationships require an independent estimate of the volume of runoff; the rainfall intensity for a time period equal to the recession constant; and measurements of certain dimensions of the watersheds including area, length of the main stem, slope of the main stem and the elongation ratio.

- Discussion, p.33-37.
- The results obtained indicate the possibility of developing a practical vapor-phase creaseproofing process for treatment of garments. The fabrics could be impregnated in a finishing plant with various formaldehyde reactive compounds, such as propyleneurea, ethyleneurea, and hydroxyethyl carbamate. After reaching the garment plant, the garments would be exposed to vapors of methyl formel-formic acid. The selection of the impregnation chemical would depend on desired functional properties: durability, weight, cost, and other factors.

- Electron microscope observations of fibers crosslinked by treatment with formaldehyde by various procedures would indicate that some crosslinking occurs at levels of formaldehyde as low as 0.11 percent and that by vapor-phase techniques fairly good crosslinking is achieved at formaldehyde levels of the order of 0.48 percent. The vapor-phase treatment appears to be diffusion and time dependent. The uniform crosslinking achieved by Guthrie at the 0.48 percent level was the result of approximately 30 hours' exposure.
- Samples treated by Arceneaux in vapors of HC1 and formaldehyde showed peripheral crosslinking at 0.22 percent HCHO, as did also samples treated with a carbamate finish by exposure to a hemiformal for the first 2 hours of exposure. After 3 hours' exposure, the treatment appeared to be uniform.

22119 U. S. D. A. Consumer and Marketing Service.  
1969 TURKEY MARKETING GUIDE. Washing-  
ton, 1968. 11 p. AHD9437, USA32  
Appraisal by the USDA's Consumer and Mar-  
keting Service of the prospects for turkeys in 1969 sug-  
gests that the market will absorb a sizable quantity of  
the excessive storage holdings along with a turkey crop  
about the same size as in 1968. Such a supply with pros-  
pects for a further--though perhaps slower--growth in  
demand may result in average prices to producers be-  
tween the levels of 1966 and 1968. The number of breeder  
hens in prospect for January 1, 1969, would be large  
enough to produce a 1969 crop at least as large as that  
in 1968.

GREECE SETS OUT TO SOLVE ITS BASIC  
FARM PROBLEMS. Foreign Agr. 6(50):12. Dec. 9, 1968.  
A281.9 F76Fo

The Greek Government has begun to implement  
the agricultural proposals set forth in its 5-year econo-  
mic development plan (1968-72). As announced early this  
year, the plan noted the problems impeding further agri-  
cultural progress and proposed to tackle some of them in  
order to modernize farming, raise production, and better  
integrate agriculture and the rest of the economy. Solu-  
tion of the major farm problems is also intended to help  
lay the groundwork for harmonization of Greek policy  
with that of the Common Market, of which Greece is an  
associate member.

AFGHANISTAN'S BUMPER FOODGRAIN CROPS. Foreign Agr. 6(52):7-8. Dec.23,1968. A281.9 F76Fo  
The influx of mechanization and technology in Afghanistan has paid off well for the country's foodgrain farmers. This year's harvest brought in bumper crops of wheat, rice, and corn for a total harvest of almost 5 million metric tons—1 million more than in 1967. Afghanistan has also been importing about 100,000 tons of wheat annually—mostly from the United States under P.L. 480—to meet food needs of urban centers.

TAPER-TENSION SAW, A NEW REDUCED KERF SAW. U. S. Forest Serv. Res. Note FPL-0185, 10 p. June 1968. A99.9 F7634Un  
Wisconsin University, cooperating.  
Design characteristics and performance data for the new "taper-tension" saw developed at the Forest Products Laboratory are presented. The new circular saw was shown to reduce kerf by about 3/32 inch when sawing pine cants into 4/4 boards.  
In a series of performance tests, "taper-tension" sawing accuracy was almost as good as a conventional 7-8 gage saw, and considerably better than a conventional narrow-kerf 10-11 gage saw.  
The new saw is tapered in a compound manner, so the board rubs the inner area of the plate centered about 60 percent of the distance from eye to rim, rather than the saw center. It is thus prestressed by a unique process, combining features of the hammered prestressing system with frictional stressing through the use of the heat generated by sawing.

PORTABLE APPARATUS FOR MEASURING SURFACE IRREGULARITIES IN PANEL PRODUCTS. U. S. Forest Serv. Res. Note FPL-0192, 3 p. May 1968. A99.9 F7634Un

Explains the apparatus developed at the Forest Products Laboratory to make possible approximate measurement of vertical deformations on wood surfaces. The portable apparatus uses a shadow-casting technique, directing a slit of bright light at two wires to produce sharply defined shadows on the surface. Distortion of the shadows viewed perpendicular to the surface provides a magnified picture of the vertical distortion at that point.

A fixed-focus camera unit with 3-inch, wide-angle lens and Polaroid back produces photographs of the surface under study. The self-contained apparatus can be used on horizontal or vertical surfaces and in any lighting.

- 22187 McMillen, J. M.  
PREVENTION OF PINKISH-BROWN DISCOLORATION IN DRYING MAPLE SAWWOOD. U. S. Forest Serv. Res. Note FPL-0193, 9 p. May 1968. A99.9 F7634Un

Wisconsin University, cooperating.

Hard maple lumber producers have difficulty in consistently kiln drying the wood to a light natural color. To obtain the very whitest color specified for some products, they believe it is necessary to start with winter-cut, air-dried material.

This experiment showed that either white or discolored lumber could be produced during the kiln drying of air-dried or summer-cut green 5/4 hard maple by adjusting kiln conditions. A low-temperature, moderate relative humidity kiln schedule produced the white stock. Various operational malfunctions that cause unwanted high humidity conditions are discussed, as are precautions in the use of the moderate humidity schedule.

- 22188 Peters, C. C., and Zenk, R. R.  
EFFECTS OF PRECOMPRESSION ON SLICED WOOD 1/2 AND 1 INCH IN THICKNESS. U. S. Forest Serv. Res. Note FPL-0194, 6 p. July 1968. A99.9 F7634Un

Wisconsin University, cooperating.

Precompressed and control flitches of chestnut oak and Douglas-fir were sliced 1/2 and 1 inch thick using a modified milling machine. Slicing was done at 70° and 200° F. and at two levels of compression and restraint. Based on measurements of checks and thickness variability of slices, precompression had little effect on the quality of slice. Compressive forces, as high as 4,187 pounds per inch of length, were reduced as much as one-half by precompression.

- 22189 Simpson, W. T., and Skaar, C.  
EFFECT OF TRANSVERSE COMPRESSIVE STRESS ON LOSS OF WOOD MOISTURE. U. S. Forest Serv. Res. Note FPL-0197, 3 p. July 1968. A99.9 F7634Un

Wisconsin University, cooperating.

The sorption isotherm of wood is stress dependent. At constant temperature and relative humidity the equilibrium moisture content of wood is increased by a transverse tensile stress and decreased by a transverse compressive stress. Stress is thus a driving force for moisture in wood and could be a significant factor in moisture movement during the drying process. The reduction in moisture content per unit of stress under a compressive stress increased with increasing initial moisture content and also appeared to increase with increasing stress level. These results suggest that this stress-related phenomenon may be significant in a better understanding of moisture movement in the early stages of drying lumber when the moisture content is high. Ultimately this kind of information could lead to improvements in lumber-drying.

- 22190 Simpson, W. T., and Soper, V. R.  
STRESS-STRAIN BEHAVIOR OF FILMS OF FOUR ADHESIVES USED WITH WOOD. U. S. Forest Serv. Res. Note FPL-0198, 7 p. July 1968. A99.9 F7634Un

Wisconsin University, cooperating.

Mechanical properties of an adhesive joint depend largely on the mechanical properties of the adhesive. A logical approach to joint design requires knowledge of these properties and the factors influencing them. This report describes methods of casting thin adhesive films and the methods and results of stress-strain tests in

(Continued in next column)

tension. The adhesive formulations tested varied from an easily deformable rubber-base adhesive to a stiff resorcinol resin. A comparison of certain mechanical properties of different adhesives can result in a wiser choice of adhesive for a particular application.

A TREE-BY-TREE MEASURE OF SITE UTILIZATION FOR GRAND FIR RELATED TO STAND DENSITY INDEX. U. S. Forest Serv. Res. Note INT-77, 7 p. 1968. A99.9 F764Un

- 22192 Ziemer, R. R.  
SOIL MOISTURE DEPLETION PATTERNS AROUND SCATTERED TREES. U. S. Forest Serv. Res. Note PSW-166, 13 p., map. 1968. A99.9 F7652

Soil moisture was measured around an isolated mature sugar pine tree (*Pinus lambertiana* Dougl.) in the mixed conifer forest type of the north central Sierra Nevada, California, from November 1965 to October 1966. From a sequence of measurements, horizontal and vertical soil moisture profiles were developed. Estimated soil moisture depletion from the 61-foot radius plot for the 1966 summer depletion season was 22.57 inches.

- 22193 Hansen, E. A., and Ffolliott, P. F.  
OBSERVATIONS OF SNOW ACCUMULATION AND MELT IN DEMONSTRATION CUTTINGS OF PONDEROSA PINE [*Pinus ponderosa*] IN CENTRAL ARIZONA. U. S. Forest Serv. Res. Note RM-111, 12 p. Ref. 1968. A99.9 F7632Us

A clearcut block on a north aspect and strips with widths of one and one-and-one-half times tree height on an east aspect increased snow accumulation and increased rates of melt and daily water loss. A strip three-fourths as wide as tree height on a west aspect increased snow accumulation. None of the strips cut on south and southwest aspects affected snowpacks measurably.

- 22194 Bergen, J. D.  
ATMOSPHERIC HUMIDITY MEASUREMENT NEAR THE SNOW SURFACE. U. S. Forest Serv. Res. Note RM-116, 4 p. 1968. A99.9 F7632Us

Describes a technique for measuring atmospheric humidity in the first few centimeters over a snow cover. Results are presented for four observation periods. The water vapor density at a nominal reference level of 2 cm. above the snow surface was found to vary from less than 20 percent to 90 percent of the density corresponding to saturation at the snow surface temperature. Little diurnal variation was found for the Bowen ratio. Possible remedies for difficulties encountered in the measurements are described.

- 22195 Godshall, W. D.  
EFFECTS OF VERTICAL DYNAMIC LOADING ON CORRUGATED FIBERBOARD CONTAINERS. U. S. Forest Serv. Res. Paper FPL-94, 20 p. July 1968. A99.9 F7634U

Bibliography, p.19.

During transportation, stacks of corrugated containers are subjected to vibrations that can produce loading forces much greater than static load weights, causing compressive failure of lower containers in the stack. This report includes a study of the factors involved, development of safe dynamic loading limits for a typical container, and determination of fatigue on container failure.

It was found that a container and its supported load act as a spring-mass system that is sensitive to frequency. Failure of containers was due primarily to simple dynamic overloading and to overloading resulting from resonant amplification of input vibration levels. Because the system is frequency sensitive, safe loading limits are a function of the input vibration frequency. Within the scope of this study, fatigue appeared to have little effect on the compressive strength of corrugated containers.

PUBLIC FORESTRY RESEARCH IN LATIN AMERICA, ITS STATUS AND NEEDS. U. S. Forest Serv. Res. Paper ITF-6, 12 p. May 1968. A99.9 F7637

Evidence of problems confronting forestry research in Latin America led to a survey of the 16 major institutions. Their research programs were found to be broad and overlapping. Program orientation is weak. Training opportunities are too few. Regional coordination of research is needed, and these institutions appear ready for it. Stronger support of expert advisors, voluntary coordination of programs, and a series of regional training courses are suggested.

22203 Hansen, E. A.  
STABILIZING ERODING STREAMBANKS IN SAND DRIFT AREAS OF THE LAKE STATES. U. S. Forest Serv. Res. Paper NC-21, 12 p., map. Ref. 1968. ASD11.A34

Banks are stabilized to protect adjacent high-value items such as cabins and campgrounds, or to reduce reservoir or lake sedimentation rates. Also, bank stabilization is undertaken as one part of fish habitat improvement programs. Rock rip-rap is the best material for bank stabilization in most cases. It does not deteriorate with time and it blends in well with the surroundings. The upper part of the bank will revegetate naturally. However, sloping and seeding will accelerate revegetation.

22204 Heede, B. H.  
CONVERSION OF GULLIES TO VEGETATION-LINED WATERWAYS ON MOUNTAIN SLOPES. U. S. Forest Serv. Res. Paper RM-40, 11 p. 1968. A99.9 F7632U

Four gullies were successfully converted to waterways on slopes of the Rocky Mountains in Colorado. Three years after treatment, they had lost only 9 percent as much soil as comparable untreated gullies. Careful engineering survey and design, close construction supervision, and good response to revegetation measures were responsible for the success. Since limits of applicability could not be established, the method is proposed for application on sites comparable to those of the study area.

22205 Hewlett, J. D., and Douglass, J. E.  
BLENDING FOREST USES. U. S. Forest Serv. Res. Paper SE-37, 15 p., map. July 1968. A99.9 F7623U

Compatibility of forest management practices on a 356-acre Southern Appalachian watershed is examined in this unique experiment to determine the feasibility of intensive management for wood, water, wildlife, and recreation. An efficient and stable access system is stressed, and the effect of various woods practices on the four basic resources is rated. Increases are shown in water yield, game forage, quality timber growth, and general use of the area. Some unresolved conflicts among uses of the forest are revealed.

# STATE AGRICULTURAL EXTENSION SERVICE PUBLICATIONS

Publications issued by the State Agricultural Extension Service are usually available from the issuing extension service, except where noted, and as long as the supply lasts. The National Agricultural Library does not distribute them.

Reproductions of material not available from the various State institutions may be ordered at regular Library rates from the United States Department of Agriculture, National Agricultural Library, Photoduplication Section, Washington, D.C., 20250.

NATIONAL AGRICULTURAL LIBRARY  
U.S. DEPARTMENT OF AGRICULTURE

## NOTICE

The National Agricultural Library is moving during May and June.

Our new address is:

National Agricultural Library  
Beltsville, Maryland 20705

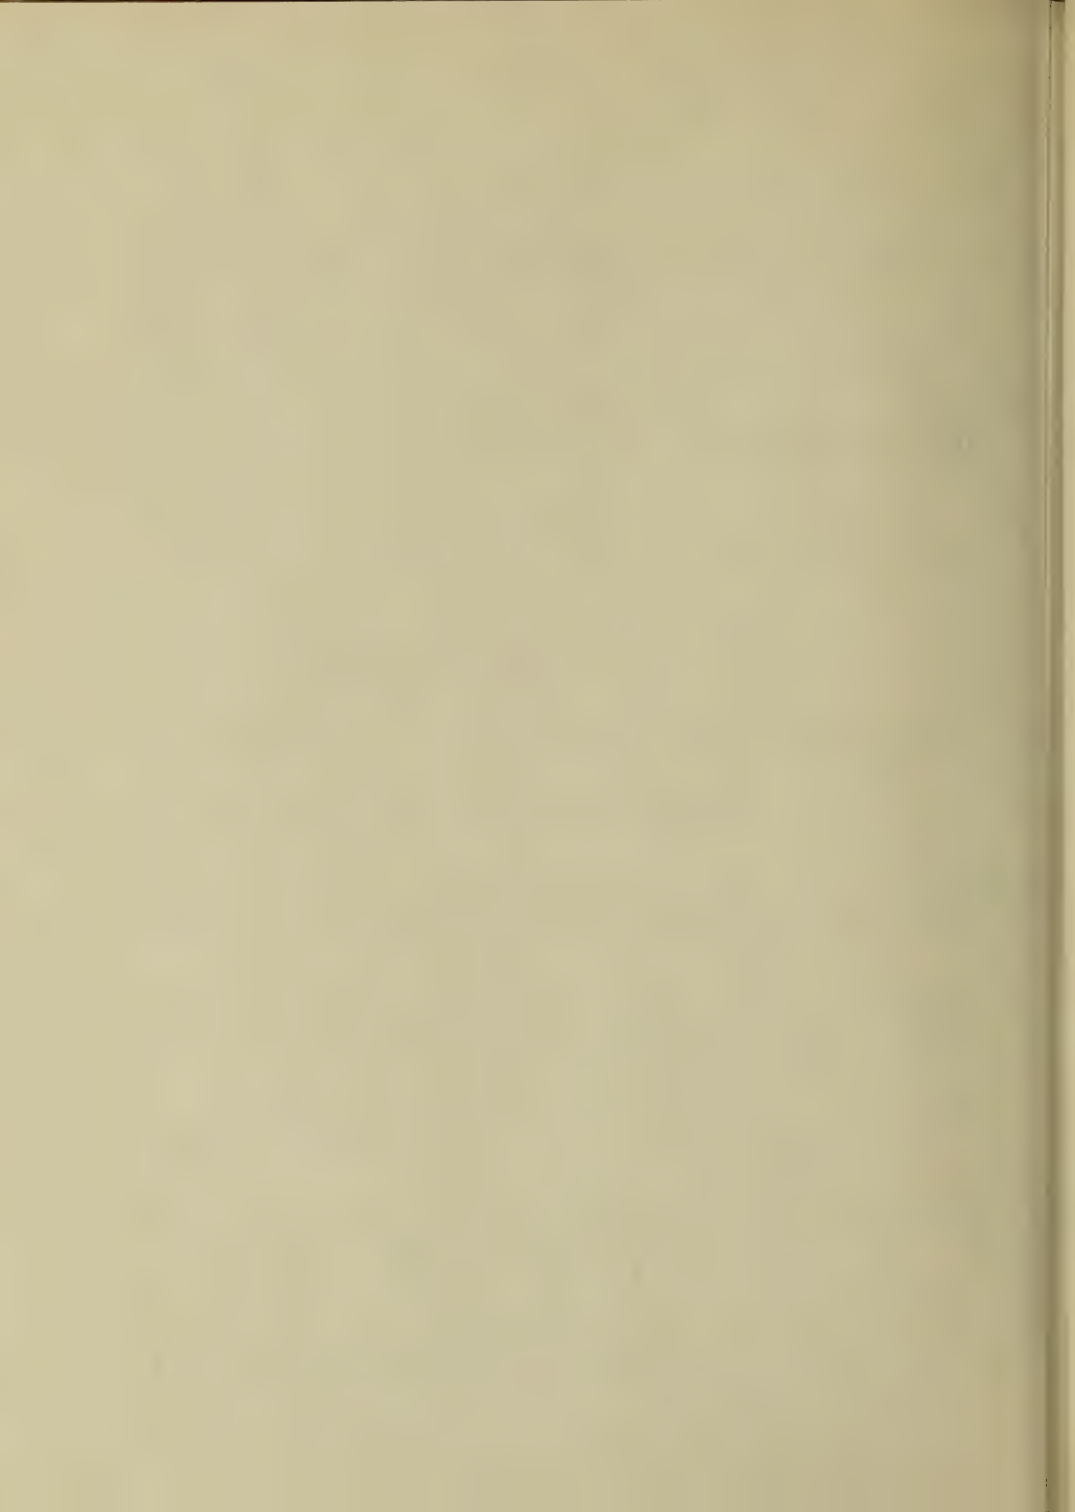

All publications returned after May 1st may be sent to the above address.

While the moving is actually in progress, service from the main Library collection will be drastically curtailed.

Reference and lending services will be provided insofar as possible by the Beltsville Branch to Department personnel only.

The July and August issues of the Bibliography of Agriculture will be issued as usual but will consist mainly of accumulated citations to literature published prior to 1968.

Full service will resume as soon as possible after the move in June.

# BIBLIOGRAPHY OF AGRICULTURE

Vol. 33

May 1969

No. 5

The Bibliography of Agriculture is an index to the literature of agriculture and the allied sciences received in the National Agricultural Library. Publications from any country are indexed, provided they are in one of the languages shown in CAPITALS at top of next column, or have summaries, abstracts, or translated titles in one of those languages.

Literature received more than one year after publication is generally not indexed. Exceptions are made for important scientific publications.

Indexing of articles on the processing of agricultural products is limited to those on primary processing.

Unsigned articles and those signed with pseudonyms or initials, editorials, letters to the editor, and columns appearing regularly, are omitted.

For more detailed coverage of the literature on pests and their control, please consult the Pesticides Documentation Bulletin, a biweekly publication of the National Agricultural Library.

## FORMAT

The Bibliography is a classified arrangement of references under the following subjects:

- USDA Publications
- State Agricultural Experiment Station Publications
- State Agricultural Extension Service Publications
- Agricultural Economics and Rural Sociology
- Agricultural Products
- Animal Industry
- Engineering
- Entomology
- Food and Human Nutrition
- Forestry
- Plant Science
- Soils and Fertilizers
- Miscellaneous

The classified section is followed by the listing of:

- New Periodicals and Serials
- Translations
- Food and Agriculture Organization of the United Nations (FAO) Publications

The last section of each monthly issue, except November, is the Author and subject index for that issue.

For monographs the title is shown in the original language, followed by the English version. Titles of foreign language articles in serial publications are given in English only; the language of the text is shown in abbreviated form in parentheses at the end of the title. The following notations are used:

(Af)	Afrikaans	(Ic)	Icelandic
(Al)	Albanian	(In)	Indonesian
(Ara)	Arabic	(It)	ITALIAN
(Arm)	Armenian	(Ja)	JAPANESE
(Az)	Azerbaijani	(Ka)	Kazakh
(Be)	Belorussian	(Ko)	KOREAN
(Bu)	Bulgarian	(La)	Latvian
(Bur)	Burmese	(Li)	Lithuanian
(Ch)	CHINESE	(No)	Norwegian
(Cz)	CZECH	(Pe)	Persian
(Da)	Danish	(Pol)	POLISH
(Du)	DUTCH	(Por)	PORTUGUESE
(Es)	Estonian	(Rum)	Rumanian
(Fi)	Finnish	(Rus)	RUSSIAN
(Fl)	Flemish	(Se)	SERBO-CROATIAN
(Fr)	FRENCH	(Si)	Siamese
(Ge)	GERMAN	(Sl)	Slovenian
(Geo)	Georgian	(Sp)	SPANISH
(Gre)	GREEK	(Sw)	Swedish
(He)	Hebrew	(Ta)	Tadzhik
		(Tu)	TURKISH
(Hu)	HUNGARIAN	(Uk)	UKRAINIAN

Abbreviated names of the publications cited prior to July 1, 1964 are those from USDA Miscellaneous Publication 765—List of Serials Currently Received in the Library of the United States Department of Agriculture, July 1, 1957. Abbreviated names of all new periodical titles received after July 1, 1964, are taken from the American Standard for Periodical Title Abbreviations. As time allows, abbreviations set up for titles before that date will be converted to the new form.

The presence of the term "Ref." in the citation indicates that the article contains ten or more references to the literature.

Following each citation is the Library classification number which should be used when requesting loans or reproduction of articles.

## FREQUENCY OF PUBLICATION

The Bibliography is published monthly. The December issue is devoted wholly to a subject index and the cumulated Personal and Organizational index to the preceding eleven issues.

## AVAILABILITY OF REFERENCES CITED

### Loans

Most of the material in the National Agricultural Library collection may be borrowed by employees of the Department of Agriculture and by other libraries. In requesting loans, please include the library call number found at the end of the citation. Loan of periodicals is restricted to the Washington, D. C. area. Foreign statistical publications and rare books are loaned only by special arrangement.

### Free Distribution

U.S.D.A. publications. Domestic requests for publications of the United States Department of Agriculture will be filled free to libraries and other qualified agencies and organizations, as long as the supply lasts. (For ordering information, see Checklist of U.S.D.A. Publications in this issue.) Foreign institutions, organizations and agencies which issue publications may obtain U.S.D.A. publications in exchange by writing to the United States Department of Agriculture, National Agricultural Library, Exchange Unit, Washington, D. C., 20250.

State Agricultural Experiment Station and Extension Service publications. Publications issued by State Agricultural Experiment Stations and Extension Services are available except where noted, and as long as the supply lasts, from the issuing station or service. The National Agricultural Library does not distribute them; however, reproductions are available at regular Library rates.

### Technical Reports

Most documents issued by CFSTI (Clearinghouse for Federal Scientific and Technical Information) are also sold by the Clearinghouse, U. S. Department of Commerce, Springfield, Virginia 22151 for \$3.00 per document.

## Reproduction

All articles listed may be obtained in microfilm or photoprint form from the United States Department of Agriculture, National Agricultural Library, Photoduplication Section, Washington, D. C., 20250. Copying charges for each periodical or book are:

**MICROFILMS:** \$1.00 for each 30 pages or fraction copied from a single article or book.

**PHOTOPRINTS:** \$1.00 for each 4 pages or fraction copied from a single article or book.

**RUSH SERVICE:** Will be furnished upon payment of \$1.00 additional for each order.

Payment must accompany the order. Cash, Library coupons, check or money order drawn to the National Agricultural Library, U. S. D. A., are acceptable. Payment for orders originating outside of the United States should be made by international money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents Deposit funds cannot be honored. Credit may be extended only to Government agencies and institutions. Billing address should be indicated.

### Library Coupons

National Agricultural Library coupons, valued at \$1.00 each, may be purchased in any quantity.

-----  
PLEASE GIVE COMPLETE BIBLIOGRAPHIC INFORMATION AS IT APPEARS IN THIS PUBLICATION FOR EACH ITEM REQUESTED.  
-----

For sale by the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C., 20402  
\$26.50 per year, domestic; \$33.25 per year, foreign. Single copies vary in price.

Use of funds for printing this publication approved by the Director of the Bureau of the Budget (March 31, 1964)

## CHECKLISTS

Checklists of publications of the U. S. D. A., State Agricultural Experiment Stations, and State Agricultural Extension Services are prepared for the convenience of those who wish to follow the literature from these sources. Most of these publications are included also in the classified section. All are indexed in the author and subject indexes.

Abstracts are included with citations of U. S. D. A. publications, provided they are brief and are received with the original publication.

U. S. D. A. PUBLICATIONS

Publications in the various United States Department of Agriculture series are listed first, followed by publications issued by the various agencies within the Department, arranged alphabetically by name of agency.

Domestic requests for publications in the various Department series will be filled free to libraries and other qualified agencies and organizations upon application to the United States Department of Agriculture, Office of Information, Washington, D.C., 20250, as long as the supply lasts. They may also be purchased from the Superintendent of Documents, Washington, D. C., 20402.

Domestic requests for most publications issued by the Department will be filled free by the issuing agency, as long as the supply lasts. Requests should be addressed to the United States Department of Agriculture, name of the specific issuing agency, Washington, D.C., 20250.

Foreign governments, institutions and agencies which issue publications, may obtain United States Department of Agriculture publications in exchange by writing to the United States Department of Agriculture, National Agricultural Library, Exchange Section, Beltsville, Md., 20705.

For further information about the availability of United States Department of Agriculture publications, consult U.S.D.A. List Number H, List of Available Publications of the United States Department of Agriculture, obtainable from the United States Department of Agriculture, Office of Information, Washington, D.C., 20250, and for sale by the Superintendent of Documents, Washington, D.C., 20402.

Agricultural Economic Reports

28901 Stinson, T. F.  
FINANCING INDUSTRIAL DEVELOPMENT  
THROUGH STATE AND LOCAL GOVERNMENTS. U. S.  
D. A. Agr. Econ. Rep. 128, slightly rev., 14 p. Nov. 1968.  
A281.9 Ag8A

Summary, p.IV.

28802 Bowring, J. R., Steward, D. D., and Bird, R.  
EFFECTS OF ECONOMIC OPPORTUNITY  
LOANS ON LOBSTER FISHERMEN IN MAINE, 1965-67.  
U. S. D. A. Agr. Econ. Rep. 136, 20 p. July 1968.  
A281.9 Ag8A

Summary, p.IV.

28803 Zimmer, J. M., and Manny, E. S.  
POPULATION CHARACTERISTICS OF FARM  
OPERATOR HOUSEHOLDS. U. S. D. A. Agr. Econ. Rep.  
141, 13 p., map. Aug. 1968. A281.9 Ag8A

Summary, p.IV.

28804 Scofield, W. H., and Coffman, G. W.  
CORPORATIONS HAVING AGRICULTURAL  
OPERATIONS: A PRELIMINARY REPORT. U. S. D. A.  
Agr. Econ. Rep. 142, 23 p. Aug. 1968. A281.9 Ag8A

Summary, p.IV.

28905 Jenkins, R., and others.  
FARMERS' EXPENDITURES FOR CUSTOM  
PESTICIDE SERVICE IN 1964. U. S. D. A. Agr. Econ.  
Rep. 146, 25 p., map. Oct. 1968. A281.9 Ag8A

T. Eichers, P. Andrienas, and A. Fox, joint  
authors.

Summary, p.IV-V.

28806 Steward, D. D.  
IMPACT OF ECONOMIC OPPORTUNITY  
LOANS ON RURAL RESIDENTS, SOUTH CAROLINA, THE  
OZARKS, MISSISSIPPI DELTA, 1966. U. S. D. A. Agr.  
Econ. Rep. 151, 61 p. Dec. 1968. A281.9 Ag8A  
Created by Economic Opportunity Act of 1964.  
Summary, p.IV-VI.

28807 Mathis, A. G., and Fravel, D.  
GOVERNMENT'S ROLE IN PRICING FLUID  
MILK IN THE UNITED STATES. U. S. D. A. Agr. Econ.  
Rep. 152, 31 p., map. Dec. 1968. A281.9 Ag8A

28808 Allen, G. C., Mighell, R. L., and Hobson, B. G.  
UREA CONSUMED BY CATTLE AND CALVES  
ON FEED; FEEDING YEAR, 1965-66. U. S. D. A. Agr.  
Econ. Rep. 153, 16 p., map. Jan. 1969. A281.9 Ag8A  
Abstract, p.II.

28809 Fox, A., and others.  
EXTENT OF FARM PESTICIDE USE ON  
CROPS IN 1966. U. S. D. A. Agr. Econ. Rep. 147, 23 p.,  
map. Oct. 1968. A281.9 Ag8A  
T. Eichers, P. Andrienas, R. Jenkins, and H.  
Blake, joint authors.  
Summary, p.V.

Agriculture Handbooks

28810 Krezdorn, A. H., and Adriane, G. W.  
FIG GROWING IN THE SOUTH. U. S. D. A.  
Agr. Handbook 196, slightly rev., 26 p. July 1968.  
1 Ag84Ah

28811 Simons, M. D., and Murphy, H. C.  
OAT DISEASES AND THEIR CONTROL. U. S.  
D. A. Agr. Handbook 343, 15 p. Nov. 1968. 1 Ag84Ah  
Iowa Agricultural Experiment Station, cooperat-  
ing.

28812 Weldon, L. W., Blackburn, R. D., and Harrison,  
D. S.  
COMMON AQUATIC WEEDS. U. S. D. A. Agr.  
Handbook 352, 43 p. Ref. Jan. 1969. 1 Ag84Ah  
U. S. D. A. Agricultural Research Service;  
Florida Agricultural Experiment Station; Florida Univer-  
sity, Agricultural Extension Service; Central and Southern  
Florida Flood Control District; and U. S. Army, Corps of  
Engineers, cooperating.

28813 Roach, B. A., and Gingrich, S. F.  
EVEN-AGED SILVICULTURE FOR UPLAND  
CENTRAL HARDWOODS. U. S. D. A. Agr. Handbook 355,  
39 p. Dec. 1968. 1 Ag84Ah

Agriculture Information Bulletins

28814 U. S. D. A. Soil Conservation Service.  
OUR AMERICAN LAND; USE THE LAND,  
SAVE THE SOIL. U. S. D. A. Agr. Inform. Bull. 321, 31 p.  
1968. 1 Ag84Ab

28815 U. S. D. A. Agricultural Research Service.  
SCIENCE AND CONSUMERS: THE STORY OF  
HOW AGRICULTURAL RESEARCH SERVES YOU. U. S.  
D. A. Agr. Inform. Bull. 322, slightly rev., 18 p. Feb. 1968.  
1 Ag84Ab

28816 U. S. D. A. Agricultural Research Service.  
Animal Husbandry Research Division.  
SELECTION AND CARE OF COMMON HOUSE-  
HOLD PETS. U. S. D. A. Agr. Inform. Bull. 332, 24 p.  
Nov. 1968. 1 Ag84Ab

28817 U. S. D. A. Economic Research Service. Farm  
Production Economics Division.  
THE BALANCE SHEET OF AGRICULTURE,  
1968. U. S. D. A. Agr. Inform. Bull. 334, 27 p., map. Jan.  
1969. 1 Ag84Ab

Farmers' Bulletins

28818 Biggs, A. A.  
FIREPLACES AND CHIMNEYS. U. S. D. A.  
Farmers' Bull. 1889, slightly rev., 23 p. Nov. 1968.  
1 Ag84F

28819 Reid, W. J., and Cuthbert, F. P.  
CONTROL OF CATERPILLARS; ON COM-  
MERCIAL CABBAGE AND OTHER COLE CROPS IN THE  
SOUTH. U. S. D. A. Farmers' Bull. 2099, slightly rev.,  
23 p. Aug. 1968. 1 Ag84F

28820 Vermeer, J., and Starbird, I. R.  
FAMILY-FARM RECORDS. U. S. D. A. Farm-  
ers' Bull. 2167, slightly rev., 22 p. Oct. 1968. 1 Ag84F

28821 Shands, W. A., Landis, B. L. J., and Reid,  
W. J.  
CONTROLLING POTATO INSECTS. U. S. D. A.  
Farmers' Bull. 2168, rev., 16 p. Jan. 1969. 1 Ag84F

28822 U. S. D. A. Agricultural Research Service.  
Entomology Research Division.  
THE EUROPEAN CORN BORER [OSTRINIA  
NUBIALIS]; HOW TO CONTROL IT. U. S. D. A. Farm-  
ers' Bull. 2190, slightly rev., 14 p. Aug. 1968. 1 Ag84F

28823 U. S. D. A. Agricultural Research Service.  
Entomology Research Division.  
GRASSHOPPER CONTROL. U. S. D. A. Farm-  
ers' Bull. 2193, slightly rev., 11 p. Nov. 1968. 1 Ag84F  
U. S. D. A. Agricultural Research Service,  
Plant Pest Control Division, cooperating.

28824 Williams, L.  
GROWING GINSENG [PANAX QUINQUEFOLI-  
US]. U. S. D. A. Farmers' Bull. 2201, slightly rev., 8 p.  
Aug. 1968. 1 Ag84F

28825 Lucas, L. M., Campbell, L. E., and Marks,  
H. L.  
LIGHTING POULTRY HOUSES. U. S. D. A.  
Farmers' Bull. 2229, slightly rev., 12 p., map. July 1968.  
1 Ag84F

28826 Simons, J. W.  
HOME HEATING; SYSTEMS, FUELS, CON-  
TROLS. U. S. D. A. Farmers' Bull. 2235, 24 p. Dec.  
1968. 1 Ag84F

#### Foreign Agricultural Economic Reports

28827 Chrisler, D.  
PREFERENTIAL TRADE ARRANGEMENTS OF  
FOREIGN COUNTRIES. U. S. D. A. Foreign Agr. Econ.  
Rep. 41, 24 p. Mar. 1968. A281.9 Ag8F  
Summary, p. 1-2.

28828 U. S. D. A. Economic Research Service.  
AGRICULTURAL POLICIES IN AFRICA AND  
WEST ASIA. U. S. D. A. Foreign Agr. Econ. Rep. 49,  
74 p., map. Dec. 1968. A281.9 Ag8F  
Summary, p. III.

#### Home and Garden Bulletins

28829 U. S. D. A. Agricultural Research Service.  
Consumer and Food Economics Research Division.  
FOOD FOR THE FAMILY WITH YOUNG CHILDREN. U. S. D. A. Home Gard. Bull. 5, slightly rev., 16 p.  
Aug. 1968. 1 Ag84Hg  
Chiefly nutrition.

28830 U. S. D. A. Agricultural Research Service.  
Consumer and Food Economics Research Division.  
FOOD GUIDE FOR OLDER FOLKS. U. S. D. A.  
Home Gard. Bull. 17, slightly rev., 16 p. Nov. 1968.  
1 Ag84Hg

28831 U. S. D. A. Agricultural Research Service.  
Human Nutrition Research Division.  
MAKING PICKLES AND RELISHES AT HOME.  
U. S. D. A. Home Gard. Bull. 92, slightly rev., 31 p. Mar.  
1968. 1 Ag84Hg

28832 U. S. D. A. Agricultural Research Service.  
Animal Husbandry Research Division.  
FREEZING MEAT AND FISH IN THE HOME.  
U. S. D. A. Home Gard. Bull. 93, slightly rev., 23 p. Oct.  
1968. 1 Ag84Hg

28833 U. S. D. A. Agricultural Research Service.  
Human Nutrition Research Division; and, U. S. Fish and  
Wildlife Service, Bureau of Commercial Fisheries, co-  
operating.

28834 U. S. D. A. Agricultural Research Service.  
Consumer and Food Economics Research Division.  
A GUIDE TO BUDGETING FOR THE YOUNG  
COUPLE. U. S. D. A. Home Gard. Bull. 98, slightly rev.,  
16 p. Oct. 1968. 1 Ag84Hg

28834 U. S. D. A. Agricultural Research Service.  
Human Nutrition Research Division.  
VEGETABLES IN FAMILY MEALS; A GUIDE  
FOR CONSUMERS. U. S. D. A. Home Gard. Bull. 105,  
slightly rev., 16 p. June 1968. 1 Ag84Hg  
Chiefly cookery.

28835 U. S. D. A. Agricultural Research Service.  
Consumer and Food Economics Research Division.  
CALORIES AND WEIGHT; THE USDA POCKET  
GUIDE. U. S. D. A. Home Gard. Bull. 153, 75 p. June  
1968. 1 Ag84Hg

28836 U. S. D. A. Consumer and Marketing Service.  
HOW TO BUY POULTRY. U. S. D. A. Home  
Gard. Bull. 157, 8 p., folder. July 1968. 1 Ag84Hg  
Grading.

#### Leaflets

28837 U. S. D. A. Agricultural Research Service.  
Crops Research Division.  
GROWING EGGPLANT. U. S. D. A. Leaflet 351,  
slightly rev., 4 p. Oct. 1968. 1 Ag84L

28838 Boswell, V. R.  
GROWING TABLE BEETS. U. S. D. A. Leaflet  
360, slightly rev., 4 p. Nov. 1968. 1 Ag84L

28839 U. S. D. A. Agricultural Research Service.  
Entomology Research Division.  
SILVER FISH [LEPISMA SACCHARINA] AND  
FIREBRATS [THERMOBIA DOMESTICA]; HOW TO CON-  
TROL THEM. U. S. D. A. Leaflet 412, slightly rev., 6 p.,  
folder. Oct. 1968. 1 Ag84L

28840 U. S. D. A. Agricultural Research Service.  
Entomology Research Division.  
THE SPOTTED ALFALFA APHID [THERIOA-  
PHIS MACULATA]; HOW TO CONTROL IT. U. S. D. A.  
Leaflet 422, rev., 8 p. Aug. 1968. 1 Ag84L

28841 Clark, F. B.  
PLANTING BLACK WALNUT FOR TIMBER.  
U. S. D. A. Leaflet 487, slightly rev., 8 p., map. Oct. 1968.  
1 Ag84L

28842 U. S. D. A. Office of Information.  
BACKGROUND ON U.S. AGRICULTURE. U. S.  
D. A. Leaflet 491, rev., 8 p., folder. Dec. 1968. 1 Ag84L

28843 U. S. D. A. Agricultural Research Service.  
Entomology Research Division.  
SPIDER MITES ON COTTON; HOW TO CON-  
TROL THEM. U. S. D. A. Leaflet 502, slightly rev., 8 p.,  
folder. Nov. 1968. 1 Ag84L

28844 U. S. D. A. Agricultural Research Service.  
Crops Research Division.  
GROWING RED CLOVER. U. S. D. A. Leaflet  
531, slightly rev., 8 p., map. Aug. 1968. 1 Ag84L

28845 U. S. D. A. Agricultural Research Service.  
Agricultural Engineering Research Division.  
BUILDING WITH ADOBE AND STABILIZED-  
EARTH BLOCKS. U. S. D. A. Leaflet 535, slightly rev.,  
8 p., map. Sept. 1968. 1 Ag84L

28846 U. S. D. A. Agricultural Research Service.  
Entomology Research Division.  
CONTROLLING THE MEXICAN BEAN BEETLE  
[EPILACHNA VARIVESTIS]. U. S. D. A. Leaflet 548, 8 p.  
Dec. 1968. 1 Ag84L

#### Marketing Bulletins

28847 U. S. D. A. Consumer and Marketing Service.  
FEDERAL-STATE MARKET NEWS SERVICE.  
U. S. D. A. Marketing Bull. 40, 4 p. Apr. 1968.  
A280.39 Ag8M

28848 U. S. D. A. Consumer and Marketing Service.  
Poultry Division.  
THE MARKET NEWS SERVICE ON DAIRY  
AND POULTRY PRODUCTS. U. S. D. A. Marketing Bull.  
42, rev., 8 p. July 1968. A280.39 Ag8M

28849 U. S. D. A. Consumer and Marketing Service.  
THE MARKET NEWS SERVICE FOR TOBAC-  
CO AND NAVAL STORES. U. S. D. A. Marketing Bull.  
43, 6 p., folder. May 1968. A280.39 Ag8M

28850 U. S. D. A. Consumer and Marketing Service.  
Grain Division.  
THE MARKET NEWS SERVICE ON GRAIN.  
U. S. D. A. Marketing Bull. 44, 8 p. 1968.  
A280.39 Ag8M

Marketing Research Reports

28851 Burns, A. J.  
THE CHANGING STRUCTURE OF THE PHILADELPHIA WHOLESALE FRUIT AND VEGETABLE MARKET. U. S. D. A. Marketing Res. Rep. 816,28 p. Apr. 1968. 1 Ag84Mr

Summary, p.III-IV.

28852 Skelly, F., Goldberg, R., and Clayton, L. Y.  
WOMEN'S ATTITUDES TOWARD COTTON AND OTHER FIBERS USED IN WEARING APPAREL. U. S. D. A. Marketing Res. Rep. 820,106 p. July 1968. 1 Ag84Mr

Summary, p.II-IV.

28853 Crom, R. J.  
MARKETING AIDS FOR THE CATTLE FEEDER. U. S. D. A. Marketing Res. Rep. 819,rev.,14 p. Jan. 1969. 1 Ag84Mr

28854 Stewart, J. K., and Ceponis, M. J.  
EFFECTS OF TRANSIT TEMPERATURES AND MODIFIED ATMOSPHERES ON MARKET QUALITY OF LETTUCE SHIPPED IN NITROGEN-REFRIGERATED AND MECHANICALLY REFRIGERATED TRAILERS. U. S. D. A. Marketing Res. Rep. 832,9 p. Dec.1968. 1 Ag84Mr

Summary, p.1.

Miscellaneous Publications

28855 U. S. D. A.  
ENGINEERS IN THE FOREST SERVICE. U. S. D. A. Misc. Publ. 1089,17 p.,map. Dec.1968. 1 Ag84M

28856 U. S. D. A.  
THE LANDSCAPE ARCHITECT: A CAREER IN THE FOREST SERVICE, U.S. DEPARTMENT OF AGRICULTURE. U. S. D. A. Misc. Publ. 1090,19 p.,map. Oct.1968. 1 Ag84M

NONLINEAR MODEL FOR EVALUATION OF  
COTTON PROCESSED BY MILLS FOR SPECIFIC END  
USES. U. S. D. A. Tech. Bull. 1401,26 p. Ref. Jan. 1969.  
1 Ag84Te
- A theoretical model for evaluation of cotton is  
described and exemplified. The operations research ap-  
proach in general and this specific evaluation model in  
particular promise valuable assistance in reaching solu-  
tions to firm and industry problems of cotton processing  
and marketing. Since quantification of the firm or industry  
model is tedious and may take years, the primary im-  
mediate advantage offered by this approach is a broad  
theoretical framework to give direction to firm and indus-  
try groups working to solve these problems. In the long  
run, this approach could furnish many new economies in  
cotton processing and marketing through greater control  
of forces affecting processing costs and market values of  
cotton products.

Simple hypothetical examples of firm and indus-  
try applications of the model demonstrate the quantifica-  
tion and solution of the model. Actual industrial applica-  
tions of the model would be more complex than the exam-  
ples shown.

RELATION OF FREQUENCY AND LENGTH  
OF SHAKER STROKE TO THE MECHANICAL HARVEST-  
ING OF APPLES. U. S. Agr. Res. Serv. ARS-42-148,15 p.  
Jan.1969. A58.9 R31

Efficient mechanical harvesting of apples is largely dependent on rapid fruit removal, which requires use of proper frequency and stroke.

In this study, a frequency range of 400 to 600 cycles per minute was found to be best for shaking Jonathan apples. On the basis of this frequency range, a shaker stroke of 7 to 8 inches would be necessary to remove all the fruit on the first stroke. The use of shorter strokes and fatigue failure over longer shaking periods is discussed as well as the efficiency of the limb in transmitting the stroke from the clamp location to the end of the limb.

The study also gives design values for the unbalance shaker mass and boom mass for inertia shakers used on conventional limbs and discusses the effect of the crank arm-connecting rod ratio on acceleration and stroke.

28902 Harrell, E. A., and Snow, J. W.  
A RAPID METHOD OF MARKING CORN EAR-  
WORM (HELIOTHIS ZEA) MOTHS WITH DYES FOR RE-  
LEASE STUDIES. U. S. Agr. Res. Serv. ARS-42-149,  
6 p. Nov.1968. A58.9 R31

Rhodamine B satisfactorily marks the corn earworm for identification of marked release insects. No decrease in mating frequency indicates no significant biological effects to the moth. Thus, the described moth marker-spray system seems adequate for rapid treatment of large numbers of moths for release programs.

BIPHENYL RESIDUES IN ORANGES: EFFECT  
OF BIPHENYL DOSAGE AND PAD PLACEMENT. U. S.  
Agr. Res. Serv. ARS 51-26,8 p. Aug.1968.  
A280.39 R31A

Biphenyl residues in oranges were higher and fruit decay was lower in cartons with the pads placed between fruit layers than in cartons with the pads at the top and bottom.

Oranges in nonvented cartons absorbed more biphenyl than oranges in vented cartons.

Biphenyl residues in oranges increased as the number of pads per carton increased regardless of the biphenyl dosage.

Biphenyl absorption increased with waxing and with number of coats of wax.

Biphenyl residues in oranges apparently cannot be decreased significantly by regulating the dosage per carton with the present commercial formulation.
